SILITEX · EXPO READY

Paint & Coatings 2026 (Barcelona)

L'Hospitalet de Llobregat (Barcelona), Spain · 18–19/11/2026
La Farga, Carrer de Barcelona 2, 08901 L'Hospitalet de Llobregat
Wed 18/11 09:00–18:00; Thu 19/11 09:00–17:30

151 exhibitors screened	**10** stand briefs (6 grade A)	**1** halls on the route	**0** stands to confirm ⚠

How to use this pack

1. **Day route** — stands in walking order, hall by hall. Tick ☐ when visited.
2. **Stand briefs** — what the company makes, where Silitex fits, 3 opening questions, what to avoid.
3. **Grade A** = clear fit, visit first · **B** = plausible, visit if time allows.
4. ⚠ = stand not on the official list yet — check the show app / floor plan on arrival.
5. After each talk: scan the QR → **Silitex Expo** on your phone (business card, meeting notes → summary and follow-up mail).

Silitex is NOT exhibiting. Single floor at La Farga, stands 100–724 (official 2026 list, 151 exhibitors). This is a supplier-side show: most exhibitors are raw-material suppliers, distributors and equipment makers — paint, ink and adhesive producers mostly come as VISITORS. So: (1) visit the 10 producer targets below (mostly emulsion / polymer makers — defoamers in polymerisation and let-down), (2) meet the distributors as possible Iberian sales partners, (3) book meetings in advance with visiting producers. Free visitor registration: https://step-exhibitions.eventszone.net/myCongress/form.php?thisFormCongress=paint26&thisFormLanguage=en&thisFormCode=vis01 · Organiser: STEP Exhibitions Iberia SL (paintandcoatings@step-exhibitions.com).

Prepared for Federica — Silitex S.r.l.
by Avshi Sapir · Sapirim — Silitex Israel · avshi@sapirim.com · +972 50 523 1042
Research date: 28/10/2026 · public sources (official exhibitor directory and the companies' own listings). Please re-check stands on the show app.

Stand briefs

1. Stahl Europe B.V. · *Netherlands* B

📍 **La Farga · 124 · www.stahl.com**

Makes: Leather chemicals and performance coatings group, including water-based polymers and finishing auxiliaries for leather and flexible substrates.

Silitex fit: Silitex has antifoams written specifically for tannery auxiliaries (DYNAPAN 301) and leather-finishing auxiliaries (CHEROX 100 I, BRILAX), plus DYNAWEED MS for acrylate/PU resins.

DYNAPAN 301 · CHEROX 100 I · BRILAX · DYNAWEED MS

1. Which of your Iberian plants formulate leather finishing auxiliaries locally?
2. Is foam or micro-foam an issue in your PU/acrylic finishing dispersions?
3. Would you test a European-made alternative for a tannery auxiliary line?

Avoid: Large global group with central procurement; Stahl also sells its own process auxiliaries, so position as a raw material, not a finished additive.

Notes / contact: _____

2. BÜFA · *Germany* B

📍 **La Farga · 136 · www.buefa.de**

Makes: German chemicals group known for composite resins and gelcoats (BÜFA Composite Systems); it shares stand 136 with Ecoimpress, Kalfrisa and Renzmann, so which BÜFA division attends is not confirmed.

Silitex fit: Gelcoat and resin production needs strong de-aeration; DYNAWEED 100 is a strong antifoam/de-aerator and AS 100 is a base for solvent-system antifoams.

DYNAWEED 100 · AS 100

1. Which BÜFA business unit is on the stand this year?
2. Do you have air-release or foam issues in gelcoat or resin production?
3. Who handles additive sourcing for your Spanish activities?

Avoid: Stand is shared with cleaning/recycling equipment firms; check which division is present before pitching resins.

Notes / contact: _____

3. VINAVIL · *Italy* A

📍 **La Farga · 142 · www.vinavil.com**

Makes: Italian producer of vinyl and acrylic polymer emulsions used in adhesives, paints and construction products.

Silitex fit: Emulsion and glue production is foam-prone; CHEROX 703/704 are written for glues and medium/high-viscosity systems and DYNAWEED MS targets acrylate and styrene-acrylate resins.

CHEROX 703 · CHEROX 704 · DYNAPAN 16 D · DYNAWEED MS

1. Which defoamer types do you use in polymerisation versus finished glues?
2. Are you looking for silicone-free options for adhesive grades?
3. Who decides additive approvals for the Spanish market: Italy or the local team?

Avoid: Shares stand 142 with Stockmeier/Intercoat, which distributes Vinavil in Iberia; Italian-to-Italian contact may already exist, so check before pitching.

Notes / contact: _____

4. IGM Resins · *Netherlands* B

📍 **La Farga · 242 · www.igmresins.com**

Makes: Producer of photoinitiators and energy-curing (UV/EB) resins for inks, coatings and adhesives.

Silitex fit: Ink and overprint varnish formulations need levelling and defoaming; DYNAWEED 201 and DYNAWEED MG are written for printing/flexo inks and overprints.

DYNAWEED 201 · DYNAWEED MG · DYNAWEED MS

1. Do your application labs recommend antifoams to UV ink customers?
2. Is foam an issue in your waterborne UV dispersions?
3. Would a starter-formulation partnership make sense?

Avoid: Mostly 100%-solids UV chemistry; compatibility of Silitex grades in UV systems is untested, so offer lab samples only.

Notes / contact: _____

5. LAIEX · *Spain* A

📍 **La Farga · 312 · laiex.com**

Makes: Producer of water-based polymers (LAICRIL, LAITEX ranges) for paints, facade coatings, waterproofing, mortars and microcement; reports 400+ products, 39 countries and 3,000+ customers.

Silitex fit: A waterborne-polymer maker that serves both paint and construction needs antifoams/de-aerators for emulsions and mortars; DYNAWEED MS is written for styrene-acrylate and polyacrylate resins.

DYNAWEED MS · CHEROX 704 · DYNAPAN 16 D

SILWALL PRF 100 / BRILSAR 1000 (silane-siloxane water repellents)

1. Which antifoams do you specify in your starter formulations for customers?
2. Is de-aeration in mortar and microcement grades a pain point?
3. Would you co-test a hydrophobic additive alongside LAICRIL facade binders?

Notes / contact: _____

6. Synthomer plc · *United Kingdom* A

📍 **La Farga · 321 · www.synthomer.com**

Makes: Global producer of emulsion polymers and specialty polymers for coatings, construction and adhesives.

Silitex fit: Emulsion polymer production and customer starter formulations both use defoamers and wetting agents; DYNAWEED MS targets acrylic and styrene-acrylic resins.

DYNAWEED MS · CHEROX 703 · DYNAWEED 2-100

1. Do Iberian application labs recommend defoamers to your paint customers?
2. Is there an open spec for a polymerisation defoamer at a European plant?
3. Who is the right procurement contact for additives?

Avoid: Large group with global procurement; shares stand 321 with Vidara Spain. Expect long qualification cycles.

Notes / contact: _____

7. Chem Spec · *Italy* B

📍 **La Farga · 418 · www.chemspec.it**

Makes: Italian developer and distributor of chemical specialties for building construction and monument restoration.

Silitex fit: Construction and restoration specialties use water repellents and plaster/paste antifoams that are in the Silitex range.

SILWALL PRF 100 / BRILSAR 1000 (silane-siloxane water repellents) · CHEROX 704

1. Which of your products do you make yourselves and which do you resell?
2. Do you formulate water repellents for stone or masonry?
3. Are you looking for an Italian additive source?

Avoid: Described as developer AND distributor, so it may be a channel or a competitor rather than a buyer; qualify first.

Notes / contact: _____

8. Organik Kimya · *Turkey* A

📍 **La Farga · 418 · www.organik.com.tr**

Makes: Producer of liquid polymer emulsions (Orgal), redispersible powders (ORP) and hotmelts, with about 200,000 tpa emulsion capacity in Istanbul and Rotterdam.

Silitex fit: A large emulsion producer serving coatings, construction and adhesives uses defoamers both in manufacturing and in customer formulations.

DYNAWEED MS · CHEROX 704 · DYNAWEED 400

1. Which plant, Istanbul or Rotterdam, buys defoamers for coatings emulsions?
2. Do you recommend antifoams in your Orgal starter formulations?
3. Is a silicone-free option needed for adhesive grades?

Avoid: Shares stand 418 with Arquímica, Lamberti and others; Lamberti is an additive maker, so be discreet on the shared stand.

Notes / contact: _____

9. BEAR QUIMICA S.A · *Spain* A

📍 **La Farga · 533 · www.bearquimica.com**

Makes: Spanish maker of water-borne resins (emulsions and dispersions) for coatings, textiles, wood coatings, construction and detergency, now entering adhesives; plants in Mollet del Vallès and Masdenverge.

Silitex fit: A mid-size local emulsion maker is the ideal size for a flexible Italian supplier: defoamers for polymerisation and finished binders, plus a vegetable-based option for eco-label customers.

DYNAWEED MS · CHEROX 100 · FISIOREX 1000 · DYNAWEED 510

1. Which defoamer types do you use during polymerisation and in final binders?
2. Are eco-label customers asking for vegetable-based antifoams?
3. Who approves new additive suppliers?

Notes / contact: _____

10. Mirodur SPA · *Italy* A

📍 **La Farga · 612 · www.mirodur.com**

Makes: Italian paint producer (since 1957) of solvent-borne, water-borne and high-solids industrial paints for metal and bodywork, with the MIROMIX tinting system.

Silitex fit: A real paint producer running solvent and water-borne lines can use both the AS solvent antifoams and the DYNAWEED water-borne antifoam/levelling grades.

AS 3° · AS 5° · DYNAWEED 600 E · DYNAWEED 260 SE

1. Which solvent systems (white spirit, acetates) do your industrial lines use?
2. Do you have cratering or foam issues in water-borne metal primers?
3. Who handles additive sourcing: the Aprilia plant or a central team?

Avoid: Italian company exhibiting in Spain, probably to sell its own paints; it may already be approached by Silitex in Italy, so check internally first.

Notes / contact: _____

Distributors exhibiting

- **Azelis España, S.A.U.** (Spain) — La Farga · 640 — Spanish arm of global specialty chemicals distributor Azelis.
- **Barcelonesa Chemicals** (Spain) — La Farga · 403 — Spanish chemical distributor and provider of specialty formulations.
- **Biesterfeld Ibérica SLU** (Spain) — La Farga · 239 — Iberian arm of Biesterfeld, international distributor of plastics and specialty chemicals.
- **Brenntag Quimica SAU** (Spain) — La Farga · 551 — Spanish arm of global chemical distributor Brenntag.
- **Brugués S.A** (Spain) — La Farga · 300 — Distributor and packager of basic and specialty chemicals with 2,000+ active customers.
- **BTC Europe** (France) — La Farga · 415 — BASF-owned distributor of specialty chemicals in small and medium quantities; shares stand 415 with BASF.
- **CALDIC IBÉRICA** (Spain) — La Farga · 115 — Iberian arm of chemicals and food-ingredients distributor Caldic.
- **Comindex – part of Impag Group** (Spain) — La Farga · 203 — Spanish raw-materials distributor, part of the Impag group.

- **DKSH Marketing Services Spain, S.A.U** (Spain) — La Farga · 215 — Spanish arm of DKSH, market-expansion services and specialty chemicals distribution.
- **Agami – Sociedade de Representações, Lda** (Portugal) — La Farga · 630 — Portuguese distributor of raw materials and specialty chemicals.
- **Additives & Surfactants** (Spain) — La Farga · 712 — Family-owned distributor of raw materials and specialty additives for Spain and Portugal.
- **BERPLISA SL** (Spain) — La Farga · 506 — Distributor of raw materials and additives for coatings, rubber and plastics.
- **DELTA TECNIC** (Spain) — La Farga · 439 — Spanish distributor of effect and colour pigments and additives (Eckart, Cabot and others).
- **INTERCOAT Specialties** (Spain) — La Farga · 142 — Spanish specialty chemicals distributor, majority-owned by Stockmeier since 2025.
- **STOCKMEIER Química** (Spain) — La Farga · 142 — Spanish arm of the Stockmeier chemical distribution group; distributes Vinavil emulsions.
- **Helm Ibérica** (Spain) — La Farga · 233 — Iberian arm of the HELM chemical marketing and distribution group.
- **Safic Alcan Especialidades** (Spain) — La Farga · 509 — Spanish arm of specialty chemicals distributor Safic-Alcan.
- **UNIVAR SOLUTIONS SPA** (Italy) — La Farga · 218 — Univar Solutions, global chemical and ingredients distributor.
- **Keyser & Mackay** (Netherlands) — La Farga · 433 — European specialty chemicals distributor for coatings, adhesives and other industries.
- **QUIMIDROGA** (Spain) — La Farga · 400 — Spanish chemical distributor; shares stand 400 with Evonik Coating Additives.
- **Grolman Iberia S. L. U.** (Spain) — La Farga · 230 — Iberian arm of Grolman, specialty chemicals distributor for paints and coatings.
- **Dolder España, SLU** (Spain) — La Farga · 451 — Spanish arm of the Dolder chemicals distribution group.
- **EIGENMANN & VERONELLI IBERICA, S.L.U** (Spain) — La Farga · 315 — Iberian arm of Italian chemical distributor Eigenmann & Veronelli.
- **KRAHN IBERIA** (Spain) — La Farga · 454 — Iberian arm of Krahn Chemie, distributor of specialty chemicals for coatings; shares stand 454 with Sekisui Kasei.
- **Comercial Química Massó S.A.** (Spain) — La Farga · 412 — Spanish chemicals distributor.
- **TER AS PRODUCTOS SL** (Spain) — La Farga · 333 — Spanish arm of the TER Group chemicals distributor.
- **TER AS PORTUGAL** (Portugal) — La Farga · 527 — Portuguese arm of the TER Group chemicals distributor.
- **KROMACHEM GmbH** (Germany) — La Farga · 327 — Specialty chemicals distributor for paints and coatings.
- **ADVANCED KIMYA** (Turkey) — La Farga · 606 — Turkish raw-material supplier to the paint and coatings industry.

Additive competitors exhibiting — know where they are

- **BYK-Chemie GmbH** — La Farga · 309 — Major additives maker (defoamers, wetting and levelling); the additives category also lists stand 303.
- **Evonik Operations GmbH – Coating Additives** — La Farga · 400 — TEGO defoamers, wetting and levelling additives; shares stand 400 with Quimidroga and LANXESS.
- **MÜNZING CHEMIE Iberia S.A.U.** — La Farga · 303 — Defoamers, wetting agents and rheology additives maker.
- **AFCONA Additives B.V.** — La Farga · 448 — Maker of wetting/dispersing and specialty additives for paints, inks and coatings.
- **Siltech Corporation** — La Farga · 345 — Silicone additives maker (wetting, slip, defoaming).
- **BASF** — La Farga · 415 — Dispersions plus coating additives, including defoamers and wetting agents.
- **Lamberti** — La Farga · 418 — Italian specialty chemicals including coating additives; shares stand 418 with Organik Kimya and others.
- **CHEMIPOL, S.A.** — La Farga · 130 — Terrassa (Spain) maker of biocides and additives, including defoamers, dispersants, thickeners and wetting agents.

Also screened

- **AECQ – Asociación Española del Comercio Químico** — La Farga · 709 — Spanish chemical-distributors trade association.
- **AGUILAR & PINEDA S.L** — La Farga · 615 — Representative for machinery and QC equipment makers.
- **AKPA KIMYA AMBALAJ SAN. VE TIC A.S.** — La Farga · 139 — Turkish maker of organic peroxides, initiators, accelerators and paint driers (supplier, not a defoamer buyer).
- **ALFA-ECOPROJECT** — La Farga · 100 — Italian maker of industrial equipment and production lines.

- **Altakem Chemicals SL** — La Farga · 103 — Activity not verified; listed in the official exhibitor list (Additives category).
- **Arquímica** — La Farga · 418 — Activity not verified; listed in the official exhibitor list (Additives category).
- **Arxada** — La Farga · 409 — Swiss microbial-control (biocides) specialist.
- **Ashapura Minechem Limited** — La Farga · 351 — Indian industrial minerals producer.
- **Asteroid Microns Pvt. Ltd.** — La Farga · 524 — Indian kaolin and industrial minerals processor.
- **BYK-Gardner GmbH** — La Farga · 309 — Testing instruments for colour and appearance.
- **Cabo S.r.l.** — La Farga · 200 — Italian maker of mixers for paint and ink producers (stand 200 group).
- **Calmit Llierca, S.A.** — La Farga · 542 — Spanish lime and precipitated calcium carbonate producer.
- **COLORIS** — La Farga · 715 — Name suggests colour/colorant activity (a possible pigment-paste producer); not verified, so check at the stand.
- **CONCENTROL S.A.** — La Farga · 436 — Listed in the Additives category; may be a surfactant/defoamer maker (possible competitor), not verified.
- **COROB IBERIA, SLU** — La Farga · 503 — Tinting and mixing equipment.
- **DACHSER Spain** — La Farga · 336 — Logistics.
- **DEMIX DISTRIBUCIONES SL** — La Farga · 448 — Activity not verified; listed in the official exhibitor list.
- **DISTEL MAQUINARIA, S.L.** — La Farga · 133 — Machinery.
- **Ecoimpress** — La Farga · 136 — Activity not verified; listed in the official exhibitor list.
- **EL CONFIDENCIAL QUÍMICO, S.L.** — La Farga · 703 — Trade media.
- **ELASTOQUIM, S.L.** — La Farga · 242 — Shares stand 242 with IGM Resins; activity not verified. Listed in the Additives category.
- **EMSA TECNOLOGÍA QUÍMICA** — La Farga · 330 — Activity not verified; listed in the official exhibitor list (Additives category).
- **EQUIPOS Y PROCESOS LEVANTE S.L.** — La Farga · 206 — Process equipment.
- **ERICHSEN GmbH & Co. KG** — La Farga · 145 — Testing instruments.
- **ESQUIM** — La Farga · 724 — Activity not verified; listed in the official exhibitor list (Additives category).
- **EUROFINS PRODUCT TESTING, COSMETICS & PERSONAL CARE SPAIN, S.L.U.** — La Farga · 339 — Testing laboratory.
- **euroMinerals GmbH** — La Farga · 542 — Industrial minerals.
- **EURORESIN (Química Europea de Resinas)** — La Farga · 348 — Activity not verified; listed in the official exhibitor list.
- **Fast & Fluid** — La Farga · 200 — Tinting/dispensing equipment (stand 200 group).
- **FOSHAN TGM MACHINE CO.,LTD** — La Farga · 548 — Chinese machinery maker.
- **G&C COLORS** — La Farga · 518 — Spanish producer of inorganic pigments (ChromaFer iron and chromium oxides); a supplier, though pigment slurries could use antifoams.
- **GLC QUÍMICA** — La Farga · 324 — Activity not verified; listed in the official exhibitor list (Additives category).
- **GRUPO ADI** — La Farga · 557 — Activity not verified; listed in the official exhibitor list.
- **Grupo RNM** — La Farga · 209 — Activity not verified; listed in the official exhibitor list (Additives category).
- **HIGHCHEMIE, S.L.** — La Farga · 318 — Activity not verified; listed in the official exhibitor list (Additives category).
- **Hoffmann Mineral GmbH** — La Farga · 342 — Functional fillers (Neuburg siliceous earth).
- **I-Tech** — La Farga · 200 — Name suggests colour/colorant activity (a possible pigment-paste producer); not verified, so check at the stand.
- **IBERFLUID INSTRUMENTS** — La Farga · 221 — Instruments.
- **Ideas y Colores, S.L.** — La Farga · 515 — Name suggests colour/colorant activity (a possible pigment-paste producer); not verified, so check at the stand.
- **Immea** — La Farga · 418 — Activity not verified; listed in the official exhibitor list (Additives category).
- **IMPLICA SCRAP DE ENVASES INDUSTRIALES Y COMERCIALES** — La Farga · 554 — Packaging recycling.
- **IMTO** — La Farga · 235 — Not verified.
- **INTEREMPRESAS** — La Farga · 705 — Trade media.
- **INTEX SYSTEM SRL** — La Farga · 148 — Activity not verified; listed in the official exhibitor list.
- **Iris Green** — La Farga · 200 — Name suggests colour/colorant activity (a possible pigment-paste producer); not verified, so check at the stand.
- **IRISEM** — La Farga · 539 — Activity not verified; listed in the official exhibitor list (Additives category).
- **Jiangsu Farfly Industrial Intelligent Equipment Co.,Ltd.** — La Farga · 512 — Chinese equipment maker.
- **KALFRISA** — La Farga · 136 — Activity not verified; listed in the official exhibitor list.
- **Keey Aerogel** — La Farga · 721 — Aerogel materials.
- **LabV Intelligent Solutions GmbH** — La Farga · 530 — Lab software.
- **Lamirsa Solutions, S.L.** — La Farga · 424 — Activity not verified; listed in the official exhibitor list (Additives category).

- **Lankem** — La Farga · 109 — Listed in the Additives category; may be a surfactant/defoamer maker (possible competitor), not verified.
- **LANXESS** — La Farga · 400 — Specialty chemicals (biocides, pigments); shares stand 400.
- **LISAM** — La Farga · 636 — Regulatory/SDS software.
- **LYDRA SRL** — La Farga · 448 — Activity not verified; listed in the official exhibitor list.
- **Maicolor** — La Farga · 200 — Name suggests colour/colorant activity (a possible pigment-paste producer); not verified, so check at the stand.
- **Majumi Chemicals sp. z o.o.** — La Farga · 524 — Activity not verified; listed in the official exhibitor list (Additives category).
- **Minerals i Derivats, S.A.** — La Farga · 245 — Industrial minerals.
- **Nanjing Tianshi New Material Technologies Co., Ltd** — La Farga · 648 — Activity not verified; listed in the official exhibitor list (Additives category).
- **NETZSCH Molienda & Dispersión** — La Farga · 633 — Grinding and dispersing equipment.
- **NEURTEK S.L.** — La Farga · 236 — Instruments.
- **NOVACHEM srl** — La Farga · 448 — Activity not verified; listed in the official exhibitor list.
- **Novasol Chemicals** — La Farga · 621 — Activity not verified; listed in the official exhibitor list (Additives category).
- **OLIVER Y BATLLE S.A.U.** — La Farga · 212 — Industrial equipment.
- **OXY Aditivos SL** — La Farga · 109 — Activity not verified; listed in the official exhibitor list (Additives category).
- **PACKERSLIFE, SL** — La Farga · 521 — Packaging.
- **Phoenix** — La Farga · 200 — Name suggests colour/colorant activity (a possible pigment-paste producer); not verified, so check at the stand.
- **Pigmenta SL** — La Farga · 500 — Name suggests colour/colorant activity (a possible pigment-paste producer); not verified, so check at the stand.
- **PIGMENTSOLUTON GMBH** — La Farga · 448 — Activity not verified; listed in the official exhibitor list.
- **Plataforma Tecnológica SENTIATECH** — La Farga · 118 — Technology platform.
- **PLIMON GLOBAL SLU** — La Farga · 445 — Activity not verified; listed in the official exhibitor list (Additives category).
- **POINTER SRL** — La Farga · 448 — Activity not verified; listed in the official exhibitor list.
- **POLYMER SOLUTIONS, SL** — La Farga · 106 — Activity not verified; listed in the official exhibitor list (Additives category).
- **PROCERAM GMBH** — La Farga · 448 — Activity not verified; listed in the official exhibitor list.
- **ProChema** — La Farga · 227 — Activity not verified; listed in the official exhibitor list (Additives category).
- **PRODUCTOS GALVANIZADOS SIEBEC, S.L.** — La Farga · 536 — Metal packaging.
- **PROQUIMAC PFC S.A** — La Farga · 127 — Activity not verified; listed in the official exhibitor list.
- **PROVENÇALE SA / MARCAEL SA** — La Farga · 642 — Activity not verified; listed in the official exhibitor list.
- **QUÁLITES** — La Farga · 145 — Not verified.
- **Quimexia Specialties s.l** — La Farga · 724 — Activity not verified; listed in the official exhibitor list (Additives category).
- **QUÍMICA MERIDIONAL S.A.** — La Farga · 248 — Activity not verified; listed in the official exhibitor list (Additives category).
- **QUIMOPROX SL** — La Farga · 430 — Activity not verified; listed in the official exhibitor list (Additives category).
- **RENZMANN** — La Farga · 136 — Activity not verified; listed in the official exhibitor list.
- **ResourceWise** — La Farga · 545 — Market intelligence/data.
- **RNM Produtos Químicos** — La Farga · 209 — Activity not verified; listed in the official exhibitor list (Additives category).
- **SA Reverté Productos Minerales** — La Farga · 421 — Industrial minerals producer.
- **SAMECA Solutions S.L.** — La Farga · 624 — Activity not verified; listed in the official exhibitor list (Additives category).
- **SAMKA METAL PACKAGING INDUSTRY INC.** — La Farga · 600 — Metal packaging.
- **SANTINT** — La Farga · 515 — Tinting machines (shares stand 515 with Ideas y Colores).
- **SEKISUI KASEI EUROPE** — La Farga · 454 — Polymer particles maker.
- **Serema SA** — La Farga · 224 — Industrial equipment.
- **SHANGHAI SHINRAY BIOTECH CO.,LTD** — La Farga · 121 — Activity not verified; listed in the official exhibitor list.
- **SOLUCIONES INFORMÁTICAS AMBIENTALES, S.L. (SIAM)** — La Farga · 618 — Software.
- **TECHNICAL MINERALS AND ADDITIVES S.L.** — La Farga · 627 — Activity not verified; listed in the official exhibitor list (Additives category).
- **THOR ESPECIALIDADES, S.A.** — La Farga · 427 — Biocides maker.
- **TSB** — La Farga · 306 — Activity not verified; listed in the official exhibitor list.
- **UĞUR TENEKE AMBALAJ VE PLASTIK SAN. A.Ş.** — La Farga · 406 — Metal/plastic packaging.

- **Velox & Coloris, S.A.** — La Farga · 200 — Name suggests colour/colorant activity (a possible pigment-paste producer); not verified, so check at the stand.
- **VERDER SCIENTIFIC IBERIA** — La Farga · 236 — Lab equipment.
- **Vibro Mac** — La Farga · 418 — Equipment (stand 418 group).
- **Vidara Spain** — La Farga · 321 — Shares stand 321 with Synthomer; activity not verified. Listed in the Additives category.
- **X-Rite Pantone** — La Farga · 112 — Colour measurement.
- **XATICO Iberia, S.L.** — La Farga · 342 — Activity not verified; listed in the official exhibitor list.
- **ZHENGZHOU HERO CHEMICAL** — La Farga · 442 — Activity not verified; listed in the official exhibitor list.
